

# All Electric Water Heater Hot Water for Pressure Washers

## Model HH-E

Model HH-E is an electric heated system that turns any cold water pressure washer into a hot water pressure washer. Systems provide versatility to operate pressure washers up to 3,000PSI and 5GPM.

## Standard

- Automatic heat exchanger
- 80-gallon heat exchanger tank
- Fully insulated for maximum efficiency (virtually 100% efficient)
- Tube type corrosion resistant elements
- 316 stainless steel coil
- Safety relief valve
- Adjustable temperature control
- Low water level indicator light

## Options

- 208/230VAC, 3PH, 60HZ, 48kW
- 460VAC, 3PH, 60HZ, 48kW
- 460VAC, 3PH, 60HZ, 72kW

## Specifications

Dimensions: 21" L X 21" W X 51" H  
Dry Weight: 400 LBS

**Main electrical disconnects are not provided**
